MARYLAND TOBACCO

"The Art of Baling Becomes A Reality" over the course of history. Maryland tobacco has found its way to market in a variety of forms. From barrels to burlap sheets, to tied leaves. Now, a new method has been designed which makes packed tobacco more manageable. A baling box machine can be used which puts up tobacco in 22 inch bales that weigh 75 to 80 lbs. These can easily be stacked or stored. The basic machine is a three-bin model where tobacco is laid in according to grade. The tobacco is compressed into bales by use of an hydraulic cylinder powered by air. A jack type system can be used for those who may not have electric available. After the bale is compressed, it must be tied with cotton twine. The use of the three-bin press allows more tobacco to be processed in less time. For more information and details on these new tobacco press units - Call **LANCASTER SILO CO., INC.** We have units in stock for sale.
Bale Unit Only **\$295.00**
w/Manuel Jack **\$340.00**
w/JAir Cylinder **\$525.00**
