

THE ONE ON THE RIGHT COSTS \$6,816 LESS

But why? They have the same horsepower, burn about the same fuel, have exclusive Caster/Action™ mechanical front-wheel drive... and we'll sell you either one.

Both of these are deluxe tractors. But the tractor on the right has 16-speed Quad-Range™ transmission, standard gauges and analog (dial) tachometer, standard seat suspension system, and offset cast rear wheels

with 6-ply-rated tires on 96-inch axles. The tractor on the left has 15-speed Power Shift transmission, Investigator™ II warning system and digital readouts, HydraCushioned™ seat suspension system, and heavy offset cast rear wheels with 8-ply-rated tires on 119-inch axles.

It's also equipped with optional front fenders and dual electric horns.

Which tractor is right for you? See us for advice on a properly equipped 100-hp 4050, 120-hp 4250 or 140-hp 4450.

BLOW, THROW or PUSH,

we make snow removal easy

A John Deere tractor and snow removal attachment will handle even the worst snow conditions.

Move snow from large areas with a snow blower and tractor combination. We have heavy-duty two-stage snow blowers for compact utility tractors, utility tractors and lawn and garden tractors.

Snow throwers are available for all lawn tractors and lawn and garden tractors. Cutting paths range 32 to 46 inches.

Front blades are also available for all tractors. Sizes range from 42 inches for lawn tractors to 84 inches for 850-1050 Tractors.

See us today for the snow removal attachment that's right for your needs.
