

AC cites snowthrower

This 62-inch snowthrower is designed for the Allis-Chalmers 5020 and 5030 tractors.

MILWAUKEE, Wi. — A new 62-in. snowthrower designed for the 5020 and the 5030 tractors was recently introduced by Allis-Chalmers.

"The model ST 62 is the perfect snowthrower attachment in either front or rear mounting for the 5020 and the 5030 tractors," said Sam Smith, manager of Allis-Chalmers Tractor Marketing and Lawn and Garden Operations.

"This snowthrower is built to last," said Smith. "It weighs up to 60 pounds more than lighter weight competitive units. The ST 62 also has a fully enclosed gear drive system which means there are no roller chains to oil and adjust."

Other features include carbon steel replaceable and reversible blades and alloy steel skid shoes. Shearbolt protection also prevents costly damage from unexpected solid objects.

An efficiently designed chute rotates 240 degrees, and the chute

deflector is easily adjusted without wrenches or tools.

Smith pointed out that the snowthrower was tested and proven by Allis-Chalmers tractor engineers. It is also backed up by the Allis-Chalmers commitment to superior parts and service.

**Fast, Efficient,
Dependable.**

**The Stormor EZZE-DRY®
Grain Drying System.**

The EZZE-DRY has proven itself fast, efficient and dependable, for more than 15 years. Drying capacities are available up to 2,000 bu/hr at 5 points removal and it doubles as a storage bin after drying is complete.

The thin drying layer and high volume, low heat airflow ensures uniform drying. And, the EZZE-DRY is virtually maintenance free.
