

Johannings - Husband-Wife Farm Store

Opens on New Holland Pike

Ken Johanning and family were welcomed to Lancaster County Dec. 17 by several area officials and the developers who constructed the Johannings' new farm and home supply building at 2460 New Holland Pike.

Johanning, 35, and his wife, Gladys, 33, moved from Kokomo, Ind., with their six children, to start a business of their own.

Johanning was a purchaser for Fleet Supply Co. of Kokomo for about 13 years before deciding to open shop in Lancaster County.

The couple employs 15 people in their new business, which offers basic supplies and accessories for farm, home, auto, and the like.

"We handle supplies for plumbing, electrical, building materials, farm supplies, clothing, sporting goods and hardware," Johanning said.

The new building, constructed by

The new farm store is located at 2460 New Holland Pike.

Buckwalter contractors, is a sizeable 31,000 square feet, housing a variety of top line products.

Johannings is open Monday through Thursday from 7:30 a.m. to 6 p.m.; Friday, 7:30 a.m. to 8 p.m.; and Saturday, 7:30 a.m. to 5 p.m.

They'll be running a sale in conjunction with the Farm Show, and will also feature a Grand Opening sale at the end of February.

The Johannings family resides in Lancaster on Pleasure Road in Grandview Heights.

Ken Johanning watches as daughter Kristen cuts the ribbon at an opening ceremony of their new family store.

White introduces utility tractor

OAK BROOK, Ill. — White Farm Equipment Company, Oak Brook, Illinois, has just introduced a new 32 flywheel horsepower utility tractor which is designed to handle jobs like scraping feedlots, loading manure, hauling wagons, snow removal, landscaping and grounds maintenance.

Called the 2-32 Field Boss, the new tractor features a four-cylinder diesel engine which delivers 28 PTO horsepower at 2600 rpm. It also has several features which are unusual for a tractor in this class, which include: a fully synchronized main transmission, a standard category I, three-point hitch with draft control and an independent live PTO drive line.

The fully synchronized transmission allows fast continuous operation in forward and reverse making the tractor ideal for loader work. A total of 18 forward and six reverse speed selections are possible.

The standard category I three-point hitch with position and draft control enables the 2-32 to utilize full drawbar horsepower and weight. It has a lift capacity of 2700 lbs.

The unique live, independent 540 rpm PTO drive line enables the operator to engage the PTO without clutching. Other standard features include: integral power steering, multi-plate wet disc brake with parking lever, ad-

justable spring-mounted seat, hand and foot throttle, electric and manual fuel shut off, differential lock, tilt steering wheel, a full complement of instruments, gauges, and lighting, and a two-post ROPS (Roll Over Protective Structure) with seat belt.

Promotion board slide show

ARLINGTON, VA. / To inform dairy farmers about the National Dairy Promotion program they are funding, the National Dairy Board has produced a slide-tape show for loan to cooperatives, farm organizations and other interested groups.

The show explains why and how the national promotion program was created and how farmers' funds are being used to stimulate the consumption of dairy products.

The show runs 9 minutes, 15 seconds and is designed to be shown on a single projector and synchronized tape player.

A minimum of two weeks' notice is necessary to ensure that requesting parties receive a copy.

To order from the National Dairy Board's lending library, please contact Robyn McKay, at 703-528-4800.

White Farm Equipment's new 2-32 Field Boss utility tractor handles a variety of farm jobs, from pulling wagons to pushing snow.

Alfalfa growers seminar

NEWARK, DEL. — A seminar for farmers who grow alfalfa will be held Tuesday, January 8, at the Clayton (Del.) Fire Hall. The program will start at 9:30 a.m. with a talk on establishing alfalfa stands, variety selection, fertility and other cultural practices. Other

presentations will cover alfalfa weed control, disease prevention, and integrated pest management of alfalfa pests.

For further information contact county extension offices in Newark (451-2506), Dover (736-1448) or Georgetown (856-5250).

Low Cost Computerized Feed-Mill With 99.9% Accuracy

Sudenga ELECTRO MILL

COMPUTA - BATCH

THE TOTALLY AUTOMATED BATCHING SYSTEM THAT WILL SAVE YOU TIME AND MONEY!

The Computa-Batch is an on-farm feed processing system that will automatically select, weigh, grind, and mix up to 12 ingredients with 99.9% accuracy. Based on tests in actual feeding situations, the Computa-Batch will save 15 to 50% in costs over a PTO mixer/grinder or buying finished feed. Ask for a **FREE COST COMPARISON ANALYSIS** to see how much your actual savings would be.

The horizontal mixer continuously produces any number of 1/2 ton batches. The mill is available in hammer or roller styles. The "user friendly" computer stores up to 60 formulas and offers complete record keeping.
