WESTFALIA HIGH TECH DAIRYING[®]

VISOTRON

High Tech control for stanchion barn operations

High tech control is now available for stanchion barn operations with the Westfalia Visotron. Every cow has different milking tendencies and Westfalia's Visotron will help you get all the milk from every cow.

With the Visotron, you can monitor milk flow, control pulsation and even regulate vacuum on all individualized basis for each cow.

Visotron saves time and money. Each cow gets the individual attention she needs to give all her comfortably without the need for manual supervision. The result: increased production and profit. The Visotron is portable and easy to install. It's the kind of addition to your dairy that will pay for itself in a very short time.

Contact your Westfalia Sales Center today. Find out why Westfalia is truly the leader in high tech dairy equipment. For the name and location of your nearest Sales Center call or write:
