**SIZED FOR YOUR OPERATION**  
12 Ft. to 36 Ft. Widths

**Nobody Builds One-Trip  
Secondary Tillage Tools  
Better Than KRAUSE**

Unique swept-back disc gangs throw soil inward to eliminate ridges.

Choice of three finishing attachments - Reel & 3-bar tine, 4-bar tine or 5-row spike harrow.

Massive hitch is an extra heavy design, proven on Krause discs. Built from 4"x6" steel tubing, it is spring-cushioned to reduce frame stress on uneven ground.

Blades adjustable from 2" below to 5" above the cultivator sweeps.

20" shallow concavity disc blades and 1 1/2" alloy tie rods are standard.

Wide incorporation area is provided in the 42" space between disc gang & front row of field cultivator shanks. Lots of room for mounting herbicide equipment.

Walking tandem wheels flex over obstacles individually & follow contour of the land for uniform working depth. Staggered only 18" so you can make tight turns without harmful side loading.

**THE LANDSMAN IS HEAVY-DUTY... WHAT YOU EXPECT FROM KRAUSE. AND IT WILL SAVE YOU TIME, FUEL AND MONEY WHILE IT HELPS TO INCREASE YOUR YIELDS.**
