

## To fight mastitis-causing bacteria and improve dairy sanitation, ask for Purina protection.

### Introducing two new teat dip/udder wash combinations.

New Purina Darigard™ II is the odorless, non-iodine formula-  
 tion that aids in reducing the spread of mastitis-causing  
 bacteria. With a reduced iodine content, new Purina®  
 Iodine .5% also protects against major mastitis-causing  
 organisms. Or choose Puridine® the original teat dip/udder  
 wash combination with 1% iodine.

### Choose liquid or powder for dairy equipment cleaning.

Purina® Solu-Clean® is the easy way to speed cleaning of  
 milk lines and bulk tanks. Dairy Cleaner MT is a highly soluble  
 powder for effective cleaning even in fluctuating water  
 temperatures.

### Purina® Udder Ointment for soothing protection of chapped udders and teats.

Ask your Purina dealer for the sanitation products you need  
 to protect dairy performance.
