

EARLY ORDER NOW FOR LOWER PRICES

What's he doing baling at this hour?

Whether it's early in the morning and there's still dew on the windrows, or late in the afternoon... he's out baling! He's treating his hay with Beacon Hay Pre-Serv*, and that means he can bale at up to 25% moisture! So, he can bring in his hay early in the day, perhaps before bad weather hits. Or he can bale two or three hours later in the af-

ternoon. Or when the hay is almost field cured, but not quite.

What's more, he'll have better hay. Because of its higher moisture content, there's less leaf shatter. There are more high-protein leaves that will turn more milk production. No wonder we call hay treated with Beacon Hay Pre-Serv SuperHay!

Start using this food-grade blend of preservatives, antioxidants and flavors on your hay yourself. Start making SuperHay, and start making super profits! Call your Beacon Advisor now.

Beacon — headquartered in Cayuga, New York. . . available throughout the northeast.
