

State's egg production increases 26 percent

HARRISBURG — Pennsylvania's February egg production totaled 359 million, 26 percent above February 1984 production, according to the Pennsylvania Crop and Livestock Reporting Service. February 1985 consisted of 28 days, compared to 29 days a year ago.

The average number of layers on hand during February 1985 was

17.8 million compared with 14.0 million on hand a year ago. Egg production per 100 layers was 2,017 compared with 2,043 for February 1984.

The nation's laying flocks produced 5.29 billion eggs during February, down one percent from the 5.32 billion produced a year ago. The total number of layers

during February averaged 280 million, one percent above the 277 million a year ago.

February egg production per 100 layers was 1,887 compared with 1,925 eggs for February 1984.

Bay awareness program set

NEW HOLLAND — The Eastern Lancaster County School District will sponsor a Chesapeake Bay Awareness Program on Monday evening, April 15, 1985, at 7:00 p.m., in the Garden Spot High School Senior High cafeteria.

The goal of the meeting is to make area residents more aware of Lancaster County's relationship to the Chesapeake Bay and to provide specific suggestions to minimize our role in its pollution.

John Page Williams of The Chesapeake Bay Foundation, located in Annapolis, Maryland, will be the featured speaker. An informative film about the Bay will be shown, depicting its development, its economic and recreational value, and how the estuary has become a victim of progress and neglect.

James Huber, Lancaster County Commissioner, will present an overview of Lancaster County's relationship to the Bay problem and what we are doing on the county level to reduce pollution.

For the last year, various environmental and farm agencies in Pennsylvania, Maryland, and Virginia have been attempting to

educate business, industry, and the general public about how the Bay.

The general public is invited to this free program. Community service clubs, churches,

agriculture, and sportsman's organizations are encouraged to urge their members to attend and become informed.

DAIRY BARN

Whether your herd numbers 50 or 500, Red Rose has a money-saving Dairy barn solution for you. Our specialized buildings are custom designed by Red Rose registered engineers to reduce your labor costs, promote animal self-care and maintain maximum productivity all year long. FACT

PROWL® effectively controls triazine-resistant weeds.

Triazine-resistant pigweed and lambsquarters can pose a severe threat to your crop—unless you use PROWL® herbicide. PROWL gives you effective control of these resistant weeds, plus velvetleaf, fall panicum, and giant foxtail and 19 other grasses and broadleaves. Do NOT incorporate PROWL on corn.

PROWL YOUR BEST HERBICIDE VALUE.

Always read and follow label directions carefully
