CUT THICK, TANGLED HAY

John Deere's 1326 Mo/Co features rotary cutting action for wet, tangled hay

It's time you took a closer look at the 7-foot 10 inch 1326 Rotary Mower/Conditioner. The 1326 has six oval disks that give you a clean cut in thick tangled grass, tough wet hay, even fire ant hills and gopher mounds

Free swinging metal tines pick up the crop and carry it across an easy to adjust conditioning shield. This scrubbing action removes some of the stems waxy surface. And that means faster drydown.
