At Farm Credit, our loan officers know what long hours you spend working your fields. We understand you can't always take the time to come see us, so we're ready and willing to take to the field and visit you. That's the kind of service you can expect from us, as farmer-owned, farmer-controlled cooperative lending institutions — and true specialists in agricultural credit. We know the ins and outs of making your operation as productive and profitable as possible with the loan you need. We're in business to help make things better for farmers and their cooperatives. And we do it by providing a wide range of financial services for everything from land and capital improvements to equipment and operating expenses.

Just give us a call, and we'll come calling. That's all it takes to talk about your loan with the people who speak your language.
