## SIMPLE ECONOMICS HAY TOOLS

FINGER-TYPE CONDITIONING!

### Deutz-Fahr introduces "hay conditioner of the future!"

Meet the Deutz-Fahr SM40CR Turbo Disc Mower/Conditioner—a simpler, easier-running mower/conditioner that speeds evaporation of plant moisture and dry-down of the crop. The key is a single, finger-type conditioning rotor that gently bends forage stems as it rubs off the natural waxy protective stem coating. The rugged 7-foot machine features cable-strut suspension and a two-speed gearbox that can be set for grass hay or legumes. Stop in soon and find out about the "simple economics" of Deutz-Fahr mowers, rakes, tedders, and balers. They treat your hay, and your money, gently.

BALES THAT SEAL OUT RAIN!

### 16 tough steel rollers... best round bales possible.

At last a round baler that makes real economic sense. High-volume capacity and picture-perfect bales that preserve high-quality, high-value hay. The Deutz-Fahr GP 220 Round Baler produces 4-ft x 4-ft bales with medium-density core and an extremely-high-density outer wrap. The wide, heavy-duty pickup is hydraulically raised and lowered from the driver's seat. Put the GP 220 to work in hay, straw, cornstalks or high-moisture hay for baleage. Stop in soon and find out how Deutz-Fahr "simple economics" mowers, rakes, tedders and balers treat your hay, and your money, gently.

\*Bales are automatically tied and ejected
