## WOODS MOWERS Worth More In The Long Run

If you're looking for more value in a rear-mount or undermount mower than look to WOODS. We're the world's largest manufacturer of tractor powered rotary mowers.

**Rearmount mowers from Woods.** You'll like the Woods RM Series of gear or belt drive models for many reasons. They're rear-mounted, so you can hook-up quickly and easily. And these new features make a Woods' rear-mount mower a better buy than ever. Our belt drive models now offer a faster blade tip speed and an automatic belt take-up adjustment. That means more convenience and performance. Plus, our gear and belt drive mowers are designed with a high velocity side discharge. Even our blades are designed to lift the grass for a more even cut.

**Undermount mowers from Woods.** Get the most mowing with the least horsepower! Woods undermount mowers are adaptable to most tractors and are available with cutting swaths of 3½, 4, 5 and 6 ft., depending on your needs.

See your Woods dealer for a demonstration.

### A Salute To Our Dairy Farmers For A Job Well Done
