

Carlisle Fair accents family entertainment

CARLISLE — The New Carlisle Fair, scheduled for Aug. 7 to 9, presents a variety of family entertainment programs. On Aug. 7, in front of the grandstand at the fairgrounds, enjoy the "Cumberland Kaleidoscope" with performances and demonstrations such as music by the Carlisle Town Band and the Singer Band of Mechanicsburg. Instrumental music will be contrasted with a performance of the famous Carlindian Chorus, featuring music in the Barbershop style. Enjoy a demonstration of square dancing by the Carlisle Whirl-A-Ways

Emergency medical procedures, involving the new Advanced Life Support Program and the EMS Units of Cumberland County will be demonstrated. All the equipment will be available for personal instruction.

Focusing on agricultural aspects of the New Carlisle Fair, emphasis will be placed on farm safety and emergency medical activities.

Also featured will be Clare Kerns of Shippensburg, who will display and demonstrate antique tractors.

Fair Program highlights for Thursday are 4-H and FFA exhibits and state sanctioned tractor pulls that evening.

Jr. livestock sale scheduled for Wayne Co. Fair

HONESDALE — The ninth annual Wayne County Junior Livestock Sale, a highlight of the Wayne County Fair, will be Aug. 10, at 7:00 p.m. at the Wayne County Fairgrounds.

All prospective buyers will be treated to a beef barbecue which will be served from 5:00 p.m. to 6:30 p.m., just prior to the sale.

The sale will serve as a climax for about 80 young people who have been raising livestock project

animals in the 4-H and FFA programs. It is expected that 16 steers, 65 hogs and 55 lambs will be offered for sale.

Animals will be weighed on Friday morning, the day prior to the sale, for the purpose of determining the sale weight. They will receive no feed or water from Thursday midnight until after they are weighed.

Buyers will receive duplicate

ribbons based on judging conducted earlier in the week. Special banners will be presented to the buyers of the three grand champion and three reserve grand champion animals.

Following the sale arrangements can be made for transportation and processing of the market animals.

Jack Bunnell will be the auctioneer.

Aer WayTM

THE BETTER WAY TO REVITALIZE THE SOIL AND INCREASE YIELD

AERATION

For pastures grasslands general field crops commercial vegetable production and turfgrass, the AER WAY provides a full 7" of penetration resulting in increased biological activity for more healthy root development

COMPACTION RELIEF

Use of the AER WAY will reduce the effects of weathering and relieve machine made compaction This encourages deeper stronger root systems and permits sub soil moisture to rise during droughts by natural capillary action

FERTILIZER AND LIME MOVEMENT

The AER WAY treated soil transports fertilizer and lime down into the root system where it has maximum value

ROTOVATION

The unique AER WAY design loosens the soil without destroying granular aggregation

CONSERVATION TILLAGE

By adjusting the offset of the rollers the AER WAY will leave stubble on top of the ground to decay without destroying soil structure A second pass will incorporate some residue and provide a seed bed in most situations The AER WAY works very well in combination with no till drills and planters

WATERLOGGED SOIL RELIEF

Use of the AER-WAY will open the soil to increase the moisture evaporation in wet soil conditions and increase water percolation to allow water logged areas to become productive again sooner

SEED BED PREPARATION

In one operation the AER-WAY loosens the soil and rolls it creating ground which is ready for seeding The AER WAY does not create a compacted zone like other secondary tillage tools

EROSION CONTROL

Because the AER-WAY does not destroy soil consolidation and leaves the residue on top of the ground, the conditions which promote soil erosion are avoided Effects of weathering are mechanically removed while leaving crop cover in tact

RENOVATION

Use of the AER-WAY opens the soil providing better root development and increased pasture life With the optional seed box attachments overseeding can be accomplished simultaneously

JIM ASCHMANN, Adams, N Y

I could feel the difference with the 7000 planter after the Aer-way had made just one pass Planting no till without the Aer way is like trying to dig a ditch with a shovel that has no handle
