

Butler markets new scale

FORT ATKINSON, WI — Today's farm economy has made precision weighing a vital part of the management practice of many farmers. And, to meet an increasing need for an efficient, economical scale, Butler Livestock Systems has introduced its Universal/Animal Scale.

It can be used for many applications, such as weighing bulk commodities, pallets and boxes;

The new Universal/Animal Scale from Butler Livestock Systems.

culling market animals by weight; obtaining litter weights; selecting breeding stock; evaluating feed performance, and providing weights for accurate calculation of medicine doses.

The Butler Universal/Animal Scale package includes two scale channels; four universal mounts; four 1-inch DB weigh beams; and one OMP-5 or OMP-15 indicator. The unit allows total flexibility,

since the decking and gating can be custom designed.

Features include a 7-foot long platform that can be built to any width up to 4 feet between channels. The recommended decking material is 2" x 8" lumber or other suitable material, supplied locally. The unit is portable, and a concrete base is recommended to insure uniform loading on all four weight beams. The unit requires 12 volt-DC power, which allows it to be operated with either a battery or an AC/DC converter. The weighing capacity is 4,000 pounds.

NEW IDEA BALERS

Rectangular Balers with Positive All-Gear Drive

- Positive all-gear drive line; straight-line power delivery to knotter
- Chrome-plated triple disc twine holder with swinging knife
- 270 square inch feed opening
