Farmers help keep America strong

America's farmers are among the great "wonders of the modern world." They not only feed us, but are instrumental in keeping America strong.

Each farm worker in the U.S. provides enough food to supply himself and more than 70 other Americans. They not only feed America, but also produce enough food for millions of people overseas.

The amazing productivity of the American farmer is a real bargain for U.S. consumers. The efficiency of American farmers enables families to eat well for a smaller

share of their take-home pay than people in most nations. And, the money Americans have left over after paying for their food has been instrumental in the growth of our economy. The production of automobiles, televisions, recreational equipment, all the consumer goods which Americans buy, are purchased after we pay for essentials such as food.

The American family farmer is a living example of the free enterprise system in action. The productivity of American farmers brings us a truly great bounty of food. You realize just how im-

portant farmers are when you ask the simple question, "Where's my next meal coming from?" The American farm, of course!

So when you sit down to eat tonight, pause just a moment and remember America's farmers and the abundant food supply they provide.

Did you know?

To prevent getting separated during a flood, some ants on the North American prairie cling together, forming a big ball, says National Wildlife's Ranger Rick magazine. The ball becomes a floating raft that constantly tumbles, giving each ant a turn to breathe. Amazingly, few ants drown.

Despite the growing popularity of recycling in many countries, International Wildlife magazine reports that only about one-fourth of all paper, aluminum, iron and steel is recycled. A report from Worldwatch Institute says that in 1981 people in the United States threw away more aluminum in the form of beverage containers than all the aluminum produced in Africa.

WHO'S WHO ON THE BASEBALL TEAM

Listed below are some comments on the nine players as a baseball player. With a little study and reasoning, you should be able to figure out what positions each holds on the team.

1. Joe and the 3rd baseman live in the same building.
2. Bob, Jim, Frank and the catcher were beaten at golf by the second baseman.
3. Ed was a very close friend of the catcher.
4. The centerfielder was taller than the rightfielder.
5. The shortstop, the 3rd baseman, and Frank each like to go to the races.
6. Bill's sister was engaged to the 2nd baseman.
7. The pitcher's wife was the 3rd baseman's sister.
8. Bob and Harry each won \$5.00 from the pitcher at poker.
9. The catcher and 3rd baseman each had two children.
10. Jim decided to get a divorce.
11. All the battery and infield, excepting Harry, Joe, and Ed, were shorter than Jim.
12. Bill and the outfielders liked to play gin rummy together.
13. Jack was taller than Frank. Tom was shorter than Frank. Each of them weighed more than the 1st baseman.
14. One of the outfielders was either Tom or Ed.
15. Bill, Bob, and Jack, the centerfielder, and the rightfielder were bachelors. The others were married.
16. Bob, Ed, and the shortstop were teetotalers.

ANSWER - Jim-LF, Frank-CF, Tom-RF, Bob-1st, Jack-2nd, Harry-3rd, Bill-SS, Ed-P, Joe-C.
