LANCASTER FARMING CLASSIFIED

SOYBEAN ROASTING ON YOUR FARM

DON'T WASTE IT - ROAST IT

Roast Your Barley, Wheat & Oats

Cut your barley earlier with higher moisture and have it roasted for drying and better digestability and sow your soybeans earlier.

Moldy or musty grain, have it restored to useable condition by roasting.

Reliable Feeding

Hard-packed and frozen silage makes feeding more than a routine chore.

Patz gives you two solutions to the problem — the RD-820 ring-drive silo unloader and the 98B surface-drive silo unloader. Both have a double-hook gathering chain with hardened steel cutters and claws that cut through frozen and packed silage.

- Spring-tensioned powered cutter keeps silo walls free of buildup.
- Preset depth-of-cut control makes feeding truly automatic (98B).
- Powerful blowers with adjustable impeller blades do the job.

We'll show you how to get the most performance for your money.

NO WEAK LINKS

John Deere has rugged, dependable chain saws for every woodcutting need

John Deere chain saws are built tough to handle woodcutting jobs quickly. And you can buy any model with confidence because we don't cut corners on quality even on our smallest saw.

With 12 models — 27.9 to 78.6 ccs — available there's a saw right for your particular needs: professional, casual or somewhere in between.

All models have a sprocket nose guidebar — 12 to 27 inches long — for less friction, longer chain life. Deep biting chisel or semichisel

chain with built-in guard links to help prevent snagging. And a counterbalanced crankshaft connecting rod for smooth operation. The adjustable automatic oiler has just two moving parts for easy maintenance.

The V and EV series saws also have an isolated engine that dampens vibration for more operating comfort. Plus a throttle trigger interlock to guard against accidental operation.

See us today for a quality built John Deere chain saw.
