

Model 250.
Capacity: 250 GPM (gallons per minute.)

Now you can enjoy all the benefits of a ring drive unloader from the company that invented and perfected it... with the new Single Cable Volumaster silo unloader from Butler. It's the same machine as the famous three-cable Volumaster, with all the advantages of high capacity, low maintenance and easy servicing. Just hang it from your existing tripod and get Butler ring drive performance. Takes one man only five minutes to convert from feeding to raise position.

Now you can... with a new, efficient and inexpensive Butler Manure Separator. It lets you separate manure into two easy-to-handle products. The result is liquid manure with minimal solids that's easy to store, agitate and apply to fields—plus manure "cake" that has a valuable use as bedding, fertilizer, mulch or for refeeding to non-milking livestock. Both ways, you're taking full advantage of your liquid manure asset. See us right away for details about this built-to-last, easy-to-maintain manure separator... available in 250 and 450 GPM (gallons per minute) capacity.
