SPECIAL
The 35 hp tractor with all the "options" standard

Case International 385 Utility Tractor

The husky Case International 385 utility tractor is the only 35 horsepower tractor that has a synchronized transmission, independent PTO, hydrostatic power steering, v.c.t. disc brakes, console controls, plus the convenience of a walk through operator's deck—all as standard equipment.

Use the Case International 385 with small plows, disk harrows, cultivators, mowers, loaders, spreaders and many other implements to do work at the lowest cost. And unlike many tractors in the 35 horsepower category you don't have to add a lot of extra cost options to make it field and feedlot ready.
