Kubota has a whole new way to cut the grass. It's the first diesel lawn and garden tractor in the country. Kubota's G-Series lawn and garden tractors come with water-cooled 2- or 3-cylinder diesel engines. They're built to outlast ordinary gas mowers by several seasons. There are four G-Series models, from 10 to 14 horsepower. They all have live front PTO shaft drive to the mid-mount mower. You can choose a hydrostatic transmission. And you can choose a variety of implements including a snowblower, tiller or front blade. So don't let the grass grow under your feet. See the G-Series soon.
