SPREADER ATTACHMENTS FOR YOU AT NO COST FROM THE INDUSTRY LEADER - SPERRY NEW HOLLAND - PLUS ALL THOSE BUILT IN EXTRAS THAT MAKES THESE UNITS YOUR BEST CHOICE.

BONDED PROTECTION

FOR NEW HOLLAND MANURE SPREADER SIDES
Bonded Protection for manure spreader steel sides is another Sperry New Holland first in service to farmers. Bonded Protection does not replace Sperry New Holland's standard Warranty against defective material and workmanship but is offered in addition to it.

Sperry New Holland will provide a new spreader side as replacement free of charge in the event that a side on a spreader manufactured by Sperry New Holland ever rusts through while the rest of the spreader is still operational. This offer is in effect during the entire useful life of the spreader whether purchased new or used. When a replacement side is provided under this policy it will be shipped F.O.B. local New Holland warehouse.

Bonded Protection does not cover the labor for installing sides nor does it apply to the tank type spreaders sold by Sperry New Holland.

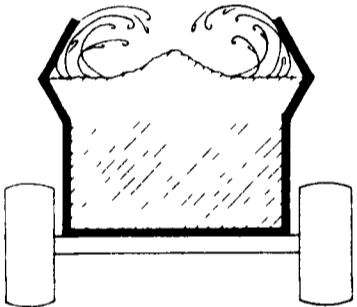

SPERRY NEW HOLLAND

- 100 Load Bearing Lubrication
- High-Strength "A" Frame Construction
- Dependable, Worm-Gear Apron Drive
- Bonded Protection Of Spreader Sides
- Wide Variety of Attachments

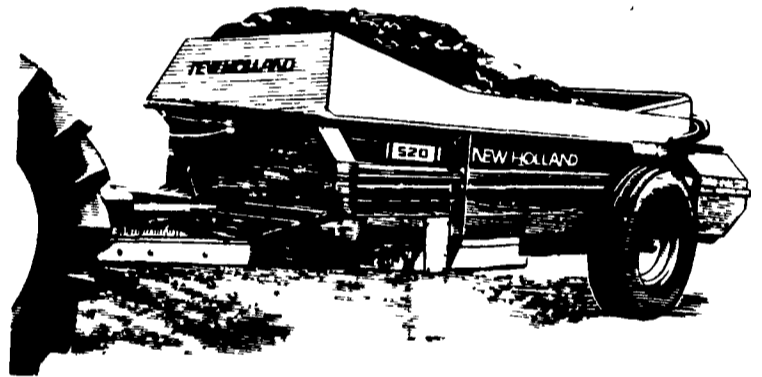

Now is the time to buy your box spreader from Sperry New Holland. Select the model 514, 520 or 680 and you'll be offered the choice of a free set of slurry sides and a free hydraulic end gate or a free upper beater and free end gate. Plus you can take your pick on financing - extended waiver, cash rebates for those not financing with us or low A.P.R.'s. See your Sperry New Holland Dealer Today.

SLURRY SIDES

- OWNERS ARE VERY HAPPY AND SATISFIED with their slurry sides. They report that the angular design of the sides permits easy loading under barn cleaners.

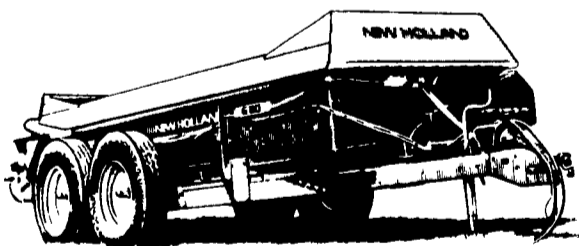

- Unique, "FISH-BOWL" DESIGN gives added depth and reduces spillage to a minimum over rough roads and fields.

520

- CAPACITY with pen-packed manure is equal to or greater than without the sides, and, in slurry, capacity is increased by 25 percent.

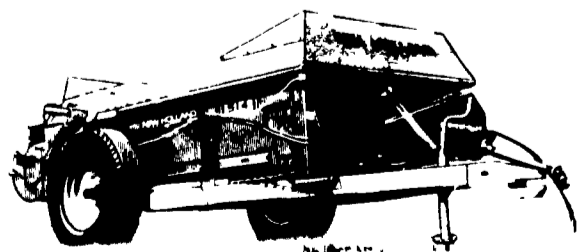

680

UPPER BEATER

- Prevents "Big Lumps" from being pulled over the main beater.
- Insures "Fine Shredding" and "Uniform Spreading" of penpacked manure.

HYDRAULIC FLUID-MANURE ENDGATE

- A VERY POPULAR OPTION on Sperry New Holland Spreaders - about 90 percent of our customers to date have ordered it.
- A REAL VALUE - unquestionably the finest, best-functioning hydraulic endgate in the industry.
- STANDARD HYDRAULIC CYLINDER has an internal relief valve, eliminating pushrod and shearbolts.
- HYDRAULIC HOSES are standard.
- RUBBER SEALS on sides and bottom of gate keep liquid leakage to an absolute minimum.
- TWO POSITIONS allow gate to be used with or without upper beater.
