

### Plushanski calf in sire program

SHAWANO, WI. — A son of Browncroft Jetson, acquired from Charles Plushanski, Kutztown, Pa., is now available from the Sampling Sire Program of 21st Century Genetics, Shawano, WI. 21st Century Genetics is the continuation of Midwest Breeders Cooperative, Shawano and Minnesota Valley Breeders Association, New Prague, Mn. The first sire summary following the

consolidation showed a Holstein lineup that averaged +91 Predicted Difference Dollars (PD\$). The newest offering from the full-service cattle breeding cooperative is 21H1003 Plushanski Jetson Hondo-ET. Combined with his maternal grandsire, Cedar-Grove Golden Nugget, Hondo's Pedigree Index is

+1216M, +34F, +\$136 and he has a Genetic Index of +1767M, +79F and +\$245. Hondo's dam is Plushanski Nugget Fobes-ET, VG-86, with a top record of 24,420 pounds of milk, 1,118 pounds of butterfat at a 4.6 percent test in 305 days. Her current Cox Index is +1583M, +113F, +\$293. Hondo is now housed at the 21st

Century Genetics' junior sire facility in Stewartville, Mn. He is one of about 120 high genetic potential young sires enrolled each year in the cooperative's sampling program. The 21st Century Genetics' sampling program has been recently revised and retains incentives to qualified users of sampling sire semen. The revised program will help to increase accuracy and allow 21st Century

Genetics to efficiently sample large numbers. Hondo and the other young sires will have to wait over four years from sampling before their first Predicted Differences (PD's) are calculated. Only about one of six bulls sampled has credentials high enough to meet 21st Century Genetics' standards for its active dairy lineup now in Shawano and New Prague

## SOYBEAN ROASTING ON YOUR FARM

**DON'T WASTE IT - ROAST IT**  
Roast Your Barley, Wheat & Oats

Cut your barley earlier with higher moisture and have it roasted for drying and better digestability and sow your soybeans earlier. Moldy or musty grain, have it restored to useable condition by roasting.

CUSTOM GRAIN ROASTING DONE IN PA AND SURROUNDING STATES OR OWN YOUR OWN ROAST-A-MATIC GRAIN ROASTER

## HOWARD®

### PARAPLOW® Model 1810

Loosens Soil Without Surface Disturbance

Impossible? It's true. The new Howard PARAPLOW loosens soil to 14 inches deep without disturbing surface residues. It breaks compaction while leaving trash on top to save topsoil from wind and water erosion. The secret is the PARAPLOW's unique "legs." The Model 1810 has 5 or 6 of them which slice into the ground at a 45° angle to gently lift, fracture and loosen. No other tillage tool works the same way. See your nearby Howard dealer.

PARAPLOW Model 1810 semi-mounted 5 or 6 legs 100 and 120 tillage widths
