Available in Gas or 1 1/2 HP, 2 HP Electric and Hydraulic Motors

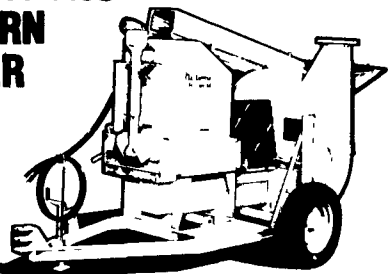

Lancaster HAY RACK is made to save space and save hay. Round 2 piece design with 19 openings. Made of heavy square tubing and wide steel plate at bottom. Easy to move, easy to fill.

Lancaster BELT FEEDER AND NEW Lancaster CONVEYOR. Modern dairy and beef feedlots can be automated with the use of bunk feeders using belt feeder units. Corn silage, haylage, high moisture corn and other feed material can be distributed quietly, evenly and with no separation. A traveling plow unit places the feed directly to the center of the bunk trough. Simple operation and very low horsepower requirements make this Lancaster belt feeder popular with dairy and beef operators. Rubber belt and wooden trough design keep slats free from rusting or corroding metal.

the one that keeps rolling when others quit!

VAN DALE

Haven't You Done Without A VAN DALE Unloader Long Enough?

You've got troubles enough without putting up with equipment that won't perform. Especially feeding equipment that you use every day in the year. The answer: Trade now for a VAN DALE. Save your motor, cable, winch, tripod. Renew the heart of your system by trading now for a new VAN DALE unloader. The unloader that keeps going year-round helps keep your animals fed on schedule. Helps keep you from climbing silos in below zero weather.

Magnum Silo Unloader

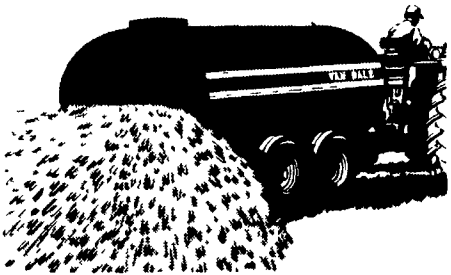

MAGNA-Matic 360® Ring Drive Silo Unloader

- Features:
- Positive drive in loose and frozen material
 - Smoother operation in tough conditions

- Quicker changeovers and increased silo capacity
- Steadier delivery of silage with less winch adjustment
