

Speed
Hay Drying
Up To 50%

With Kuhn Mower-Conditioners

Kuhn has engineered Mower Conditioners that cut hay up or down, wet or dry, even in toughest conditions. They operate fast, resist clogging, and condition hay thoroughly to speed drying time up to 50%. There's less chance of "rained-on hay," and the palatability is improved with a Kuhn Mower Conditioner. Highly efficient oval disc cutting system severs crop at base and feeds it through free

swinging fingers and reversible conditioning comb. As grass goes through conditioning comb, natural wax is stripped. Conditioner is adjustable to 20 positions to suit crop and weather. Adjustable swathboards provide light fluffy swaths to ensure fast drying times. Cutterbar is height-adjustable to suit terrain and incorporates blade protection features. Built tough to last! Call or write for more information.

FC250—5 oval cutting discs
8' cutting and transport widths
FC300—6 oval cutting discs
10' cutting and transport widths

GYRORAKE

DELICATE CROPS MUST BE HANDLED WITH EXTREME CARE DURING WINDROWING TO ENSURE THE LEAVES REMAIN ON STEMS FOR THIS YOU NEED A KUHN GYRO RAKE!!!

The Gyrorake produces single or double swaths puts two swaths into one turn and moves the crop all with the same gentle action. A well shaped swath is formed whilst leaving the raked ground clean.

Thanks to its large working width the GA 402 is ideal for high capacity raking.

Kuhn Tillers

Built Tough To Last

Right through the line—from the smallest with 30-inch working width to the largest 120-inch model—Kuhn tillers are engineered for durability and efficiency. Durable so they won't break down under heavy going or long hours. Efficient so they operate smoothly, don't clog, do a thorough job of aerating topsoil and blending in residues. Wear-resistant heavy-duty blades penetrate soil cleanly, are faced outwards to prevent clogging. Side plates designed to prevent soil ejection from the sides of the rotor housing, and solid support is provided at each side of the cover. Full width tillage. Completely enclosed drive shaft to the precision heat-treated gears and a heavy-

duty gearbox to resist shock loads and wear. Gearbox construction—with no chains or belts—provides a unit that is practically maintenance free.

Front mounted guide wheels as standard equipment (skids available as optional equipment) give precise depth control and maneuverability.

Whatever your tilling needs...call on Kuhn to turn under crop residues, clean stubble, rejuvenate grassland, or provide good soil aeration and irrigation in orchards, vineyards, market gardens, landscaping, or for large homeowners. Six complete tiller series with efficient power needs of as little as 12 to 35 h.p. up to 140 tractor h.p. for the largest models. For More Information Contact

Mow FAST. Mow CLEAN

with the Kuhn GMD55

Five fast spinning oval discs give you 6 ft 7 in cutting width. Here's a high speed multidisc mower that lets your tractor wheels straddle the swath, mows at high speeds without clogging. You get excellent cut regardless of crop height or density. Replaceable stone guards

protect discs, and oval design discs knife through wet or bent crops, leaves an even fluffy swath as mower follows ground contours automatically!

KUHN: Built Tough To Last

Five oval discs feature free-swinging blades to mow through most anything, even fire ant hills!
