DEERE'S COMMITMENT TO YOU

At John Deere, your new machine buy has a solid backing of parts, service, and good trade-in value

120-HP 4250 TRACTOR

An efficient engine backed by a very productive powertrain

The 4250 uses a 466-CID turbocharged John Deere diesel to pump out its 120 horsepower. The turbocharger is part of an especially efficient fuel delivery system that provides great field performance.

Fifteen speed Power Shift transmission is available to help you make the most productive use of the horsepower. You have the right speed for any job and immediate no-clutch alternatives for changing conditions.

See us for more fuel-saving time-saving reasons to put a 4250 to work in your operation.

This Tractor Low Special Price, Open House Day Only January 28th

FOR LOW-TILL OR NO-TILL

Save fuel, time, moisture and soil with a

Max-Emerge[®] conservation planter. Here's a rugged planter you can rely on in most soil conditions including stubble and many sod fields.

Heavy duty springs help transfer weight from the 7-inch frame to each planting unit to keep unit-mounted coulters in the ground. Frame-mounted coulters and cast-iron firming wheels are available too for extra-tough conditions.

Whether you no till, low-till or conventionally till your ground, these 4 row (30 to 40-inch rows) and 6 and 8-row narrow models can help you save fuel, time, moisture and soil. See us soon for details.

This Planter \$1,650. Rebate Thru January 30th
