

Case International 1896 & 2096 Tractors

The latest in turbo technology, lugging ability, fuel efficiency!

The high-torque diesel engines in 1896 and 2096 tractors are the result of the latest diesel and turbocharging technology, plus computer-assisted design and manufacturing techniques. They're engines that combine outstanding lugging ability with exceptional fuel efficiency, reliability and smooth operation.

Optional Mechanical Front Drive (MFD) puts the power to more efficient use, especially in soft,

spongy fields and slippery feedlots. With more traction and more pulling power at your command, you'll get more output from your implements, accomplish more work every hour, every day and squeeze more work out of each gallon of fuel.

All this plus advanced instrumentation that helps you work more efficiently and the extra comfort and convenience that only a Silent Guardian cab can provide.

1896, 95 PTO hp*
2096, 115 PTO hp*
