**EXPERIMENT  
WITH TILLAGE**

**This Max-Emerge<sup>®</sup> conservation planter works in nearly all field conditions**

Cutting crop costs is a sure way to help your profit picture. And this 7000 Max-Emerge Conservation Planter can help by letting you experiment with ways to cut back on field preparation. Use in well prepared or many no till fields.

A unit mounted tillage coulters cut a path ahead of the Tru Vee™ openers to help ensure accurate seed depth. For stony conditions check the optional frame mounted coulters.

We'll help you pick the right model for your needs. Stop in soon.

**JOHN DEERE  
GREEN LIGHT  
SERVICE TAKES  
THE WORRY OUT  
OF BEING  
BUSY...**

Especially when the weather doesn't cooperate. That's when the season seems shorter, you get busier and equipment downtime costs more.

But when you take advantage of our Green Light Service especially the off-season specials like the one we're having right now, you can roll into the field and not worry so much about unexpected downtime. Because we will have inspected for the unexpected. And troubleshooting in the shop is a whole lot more affordable than finding trouble in the field. Especially when you're busy.

So call us today and check out our Green Light Service Specials. Then you won't have to worry about it later when things get busy.

**HYDRAULICALLY SET  
WIDTH OF CUT**

On the John Deere 2800 Plow, hydraulic power adjusts the cutting width.

A hydraulic cylinder attached to the bottom-pivoting bar pivots the bottoms at the touch of a tractor hydraulic control lever. In seconds, the operator can choose from an infinite number of cutting widths, ranging from 14 to 24 inches.

Hydraulically changing cutting width on the go permits leaving more or less trash on the surface and avoiding slabs. It also allows finishing irregular lands easily and straightening crooked furrows fast.

See us soon for all the details on the John Deere 2800 Semi-Integral Plow.
