# Gehl has the answer to every spreading need.

## a. Solid

If you handle mostly solid manure, the Gehl 100 Series box spreader should be your choice. It's built to give you more years of service. A specially constructed floor with Clad-Tuff™ protection prevents the apron from freezing to the floor. The Ex-Ten™ A steel frame has more strength than ordinary steel. And, the copper-bearing steel sides form a self healing rust scale that prevents pitting. Six sizes are available, with load capacities from 135 up to 425 bushels heaped (243 cu ft).

100 Series

## b. Semi-Solid

The Gehl 500 Series gets semi-solid manure onto your fields fast and economically. Loading is easy from barn cleaner or bucket with the efficient, open top design. An internal chopper-type auger blends manure and forces it to the oversized, heavy-duty rear fan for wide even discharge patterns. Engineered to handle high volumes, it can spread up to 1500 gallons of semi-solid manure in 2.5 minutes with uniform patterns up to 50 feet.

500 Series

## c. Liquid

If you handle only liquid manure, a Gehl 700 Series liquid tanker should be your choice. Featuring an internal auger, it spreads evenly uphill or down. Plus two discharge outlets let you choose either high application rates and fast unloading or moderate application rates. And, a fill indicator helps prevent overflow during loading.

700 Series

## d. All of the above

The one spreader for a two spreader farm, a Gehl 300 Series spreader lets you spread liquids, semi-solids, pen pack, even frozen manure. The patented heavy duty square tube auger makes the big difference. Turning at low RPM, it produces a unique "pulse action" that breaks up manure in the tank. Specially formed paddles rip through tough clods to deliver a steady, constant flow to the discharge. The auger can be powered up and down to chop through bridged and frozen material. Variflo discharge gives you complete application control.

300 Series

For more answers about the Gehl spreader that best fits your manure management system, talk to your Gehl dealer. Or contact Gehl Company for a free manure spreader technical series buyers' guide. Gehl Company, 143 Water Street, West Bend, WI 53095.
