

Built-in no-till performance at no extra cost!

Case International 800 Series Planters

Do you need a planter that can go directly from conventional-till to min-till or no-till without the extra cost of no-till colters? Then Case International has the answer, the 800 Series Early Riser planter.

In side-by-side on-farm tests, an independent testing agency confirmed that the exclusive design of the Case International narrow angle, staggered double disk opener penetrated hard ground and sliced through trash better than two other popular planters equipped with colters.

Test results also proved Early Riser outperformed the other two planters in both emergence and yield. And farmers confirmed that the Early Riser was faster and easier to adjust and calibrate in all planting conditions.

So if you are considering a new planter, get the planter that's ready for no-till when you are ... the Case International Early Riser.
