LABOR-SAVING, HIGH QUALITY AUGERS

We Have Models Available For All Common Planters

KASCO AUGER SYSTEMS
Install On Most Planters

Due to the difference in make up of planters, size of boxes and distance between boxes **TWO MODELS OF AUGERS ARE ALIKE.**

Kasco fertilizer augers, both vertical and horizontal, are powered with a hydraulic motor on each auger.

Tube is 6" diameter with safety shields over each set of holes. Hoppers also have safety shields over auger flighting.

The vertical auger is mounted independent of horizontal auger. Hopper is carried high enough to clear ground when planter is in operation, yet top of hopper will set under discharge chute of gravity box.

HORIZONTAL AUGERS FROM \$800
VERTICAL AUGERS FROM \$650

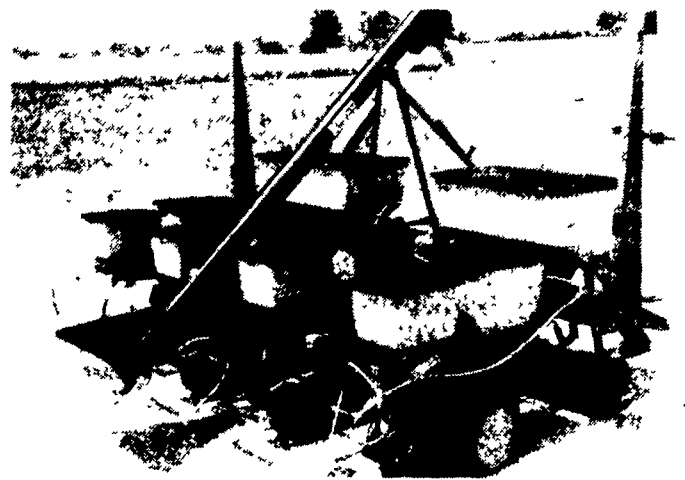

SAVE BIG \$\$\$ ON BULK FERTILIZER
Order Today For Spring Delivery Of Fill Attachments

KASCO MODEL W-AUGERS

Kasco model W-auger for four row planters (two fertilizer boxes) is designed to take the material from a gravity box (with no additional auger) and deliver it to the two fertilizer boxes. It is powered by a hydraulic motor on the top end. Two hoses from the tractor hydraulic system is all that is needed to run the auger.

Kasco model W-augers will install on most four row planters and will eliminate the lifting of heavy fertilizer bags. Also the savings of using bulk fertilizer will soon pay for the auger.

MODEL W-AUGERS FOR
4 ROW PLANTERS FROM \$680
