"We increased our milk income by \$30,000 this past year"

JIM WITTER  
Witterdale Farms  
Shippensburg, PA

"I believe **Silo Guard II** is partially responsible for this milk income increase due to the fact we've made no changes in our feeding program other than treating our haylage this past year with **Silo Guard II**.

I began noticing the untreated haylage was 'carmelizing' along with loosing excessive amounts of water. Treatment of the haylage with **Silo Guard II** eliminated this problem totally. The fed-out haylage now has a fresh, green appearance with a pleasant aroma. Our herd, 200 of which we're milking respond to the treated haylage very well, eagerly clean it up with no hesitation. I feel that the improved silage diet along with closer attention to milking and feeding programs have made the difference. I'm planning to treat other silages this year with **Silo Guard II** and strongly recommend it to other dairy farmers. It sure makes a **profitable** difference for me," says Jim.

For complete information on maintaining a higher quality silage and **increasing** your profits... contact one of our **Silo Guard II** Reps. or call us toll-free.
