

Cimarron Alfalfa Proven Performance

Premium alfalfa seed is an important part of any high-yielding, high-quality alfalfa program.

That's why more and more growers are planting CIMARRON Alfalfa. CIMARRON is a consistent top producer, both on the farm and in university tests — not only in total yield but in crude protein content and TDN. It's an extra leafy/full season variety with excellent stand persistence.

CIMARRON Alfalfa exhibits outstanding resistance to a broad spectrum of diseases and insects such as Phytophthora root rot, bacterial wilt, Fusarium wilt, anthracnose, Sclerotinia crown and stem rot, Stemphylium leaf spot, common leaf spot, pea aphids, spotted alfalfa aphids and the alfalfa weevil. No other variety can match CIMARRON'S combined pest resistance.

Depend on the proven performance of CIMARRON Alfalfa.

Cimarron

The high yield, high quality alfalfa.
