AG DAY MARCH 20

Let's Salute Agriculture!

This is the industry that keeps us going...and growing strong as a nation. The American farmer, stockman and all those who are part of agribusiness have earned our pride and gratitude for their big contribution!

Start every day feeling good... with the best from Funk.

Come next summer, you'll know you've made a wise management decision. You'll be growing hybrids with a reputation for delivering what farmers want - consistent high yields.

That's exactly what you can expect from these hybrids. New G-4326. Strong overall performance puts this 100-105 hybrid in the must-plant category for many farmers.

It offers competitive yields for its early maturity along with strong stalks and easy harvesting.

New G-4440. Several years of testing prove G-4440 can yield right up at the top of its 110 day class. It's been delivering this high performance in our test plots in southern Pennsylvania

Performance you can bank on.

as well as the Corn Belt. Big, showy ears on fast-growing plants make it a roadside eye catcher.

G-4594. Wide adaptability and performance under heat and drought make G-4594 a wise addition to anyone's corn program. You'll really like its large, girthy ears...and the way it stands tough through harvesting.

Three of the best. There's no better way to start every day.
