**With The New Culti-Planter Attachment
Designed For Cornplanters & Grain Drills
(Wacks Out Tracks)**

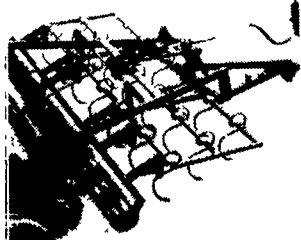

Accomplish seedbed preparation in the same pass as planting

In Stock

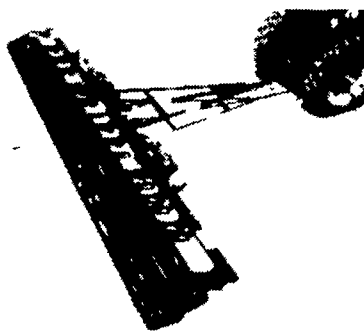

The Culti-Planter is a unique combination of 5 tines and the aggressive roller from Unverferth Rolling Harrow.

A single cylinder operates both the cultivator and the grain drill. Depth of cultivator and drill can be set independently.

Culti-Planter mounts to the front of your grain drill planter. It becomes an integral part of the implement so you can finish the seedbed and plant seed on the same trip through the field.
