**The clear strength advantage of the new Calumet S-3750 spreader tank**

You see it first in the "over-built" undercarriage.

4 inch spindles and 16 000 lb capacity hub. And like all Calumet tanks the new S 3750 features extra strength flanged heads and continuous finished welding of tank to frame (instead of skip welds).  
The S 3750 operates from 540 or 1000 RPM PTO or optional hydraulic motor drive. It accepts our 2 or 4 shank soil injectors. Four wheel hydraulic brakes are controlled from the tractor cab.

Liquid level indicator is standard. And the price is right. If you're thinking about a new tank, see the new competitively priced S 3750 at your Calumet distributor. Other models offer 2250 3250 4500 and 6500 gallon capacities. All are built strong as a Calumet by the strong company in liquid manure equipment.
