

Measure the Performance.

# NORTH ATLANTIC B-38 PROOF

**Windy Knoll View**  
**James & Nina Burdette**  
 Mercersburg, PA

The Burdette's present feeding program consists of high quality corn silage, alfalfa hay, and HMSC, along with Purina's North Atlantic B-38 Dairy Concentrate from Detrich Elevator. During the past year their RHA increased by 1489 pounds of milk and 60 pounds of fat.

James and Nina contribute their success to raising high quality forages and feeding a balanced program. They also say that they get their calves off to a good start by using Calf Startena and Calf Growena.

Pictured is the Burdette's All Pennsylvania Junior 2-year-old, Windy Knoll View Justa Wonder. As a Junior 2-year-old, she scored an impressive 88 with excellent mammary. Freshening at 25 months of age, her first 329 day lactation produced 19,826 pounds of milk and 651 pounds of fat.

The Burdette family is one more example of what good management, good feeding, and good breeding can do to increase performance.
