

# MAKE SHORT WORK OF YOUR SPRING SPREADING CHORES WITH NEW HOLLAND EQUIPMENT

When you have mountains of manure to move, you can rely on New Holland spreaders and skid-steer loaders. Their productivity, dependability and versatility make them a smart investment.

## SUPER BOOM LOADERS

They're the skid-steer loaders with more forward dump reach than conventional loaders. You get reach that lets you fill the biggest spreaders from one side, plus a sure-footed stance with a longer wheelbase and a lower center of gravity than other loaders.

## MORE THAN A MANURE HANDLER

No matter which "Super Boom" loader you choose, you'll find it does hundreds of jobs around the farm. It's so versatile, you'll use it every day for loading, lifting, digging, feeding, clean-

ing. There's no end to the chores it can do.

## VERSATILE SPREADERS

All Sperry New Holland box spreaders are well known for fast, efficient spreading of solid manure. Now, with special slurry side extensions, they can handle sloppy, runny manure. The "fishbowl" shaped side extensions splash liquid back toward the center of the spreader. Our New Slurry Tank Spreader and our Flail Tanker also provide the same versatility. If you've got a lot of real soupy manure to handle these would probably suit you best. But these machines will also handle solids as well. Ask your New Holland Dealer for a demonstration today.

## BONDED PROTECTION

New Holland offers you "Bonded Protection" on all box spread-

ers. That means you get free sides if those on your New Holland box spreader rust through while the rest of the spreader still works. Even if you buy the spreader used.

## BEST VALUE PACKAGE

No one builds equipment better than New Holland. And no one backs up the sale as well either. Quality parts and service, excellent trade-in value, bonded Protection, a one-year/500-hour warranty on loaders, and a two-year warranty on spreaders. That's all part of the best value package you can buy.

Before you buy, see the dealer with the best total deal. He sells New Holland.
