ATTENTION FARMERS
Strengthen And Reseal Your Silo
With Shotcrete

S & S Silo Service Has Experience
Over 160 Silos Have Been Relined With Shotcrete

S&S Silo Service prepares the silo surface by using a 3,000 lb. pressure washer, thus making the silo moist, making a much better surface to bond

shotcrete. After shotcreting, S&S always takes away any roughness by applying a steel trowel finish.

The excellent bonding of shotcrete to the silo will keep out moisture and prevent mold from growing on the side of the silo.
