Vertical Path Boom. A leap ahead in loader logic.

New John Deere skid-steer loaders give you up to 30% more reach

Boom arch is eliminated! John Deere's Vertical Path boom lifts loads up and out. So you've got up to 30% more forward reach than most other skid-steers for good truck loading ability.

These new John Deere skid-steers also have 30% more lift per pound of weight than conventional units, thanks to high strength steel and uniframe construction.

And they run the ground well. A low center of gravity, low profile and long

wheelbase provide the stability for better rough-terrain performance and faster travel. Hydrostatic drive allows precise speed control. Shorter overall length and narrower width make for superior maneuverability. Two-lever steering and foot controls increase operator efficiency.

31-hp gas or 33- and 44-hp diesel models. See them work.
