

# CASE IH

## HAY AND FORAGE EQUIPMENT

**The efficient way to high quality feed production.**

If you are in the dairy or beef business and raise all or part of your hay and forage, you owe it to yourself to find out what Case IH has to offer in equipment. Case International hay and forage equipment can help you harvest and preserve your crops when they're at their highest nutritional value. See your dealer for equipment that has the crop-handling capacity to enable you to move fast when a crop is ready to be baled or chopped.

**You'll see:**

- Two advanced design self-propelled windrowers - the only ones in the industry offering three distinct types of interchangeable headers.
- Sickle-bar mowers, and mower-conditioners including models with 12 and 14 ft. widths (3.7 and 4.3 m) for acre-eating capacity, plus dual rakes that reduce trips over the field while keeping your haymaking on schedule.
- Rectangular balers offering up to 19 tons (17,252 kg) per hour capacity, plus round balers that let one man produce up to 18 tons (16,344 kg) of 6 foot (1.8m) diameter bales per hour.
- Advanced design forage harvesters with six interchangeable crop units including a 90-inch (2.3m) hay pickup that handles big, wide swaths with ease.

So see your Case International dealer and have him help you choose the equipment best suited for your operation. And remember, he'll be there after the sale to back you up with the best in parts and service.

Balanced Head Mowers

781/881 Forage Harvesters
