AM ARTS-WAY

MID-MOUNTS

Out Ahead In Design And Value

Compare any other mid-mount with Arts-Way and see why these mowers have led the field since 1939

Arts-Way uses a separate power belt between tractor PTO and the mower's drive pulley, with a second belt to drive the three blades. This 2-belt system eliminates the need for belt twisting, prolongs belt life, makes tension adjustments and belt changing easy. (Compare with some makes that use a single belt turning and twisting around as many as 7 pulleys and PTO.)

Other features: 7-gauge steel decks ■ High-suction, drop-design blades for a smoother cut ■ Full 1" diameter machined spindles with Timken roller bearings top and bottom ■ Sealed bearings on PTO idler pulleys ■ Puncture-proof semi-pneumatic tires ■ Designed for side, rear or front-PTO drive tractors up to 49 HP ■ Cutting height adjustable from 1" to 5" ■ One-Year Limited Warranty.

And Arts-Way mid-mounts fit a wide range of tractors from the newest models (including imports) to old farm favorites. See your dealer for a complete list.

COME IN AND SEE THE REVOLUTIONARY RITCHIE® CHALLENGER™

The Revolutionary Ritchie Challenger will water your livestock reliably and economically from now 'til the end of this century and beyond!

The Ritchie Challenger is your best long term investment in livestock watering!

- DEEP WATER WELLS provide protected and controlled access to clean fresh water supply all year
- FLOATING THERMAL CAP insulates water for coolness in summer and heat conservation in winter. Easy for livestock to depress and drink easy to remove for service. Keeps water cleaner and prevents algae formation.

● LARGE, PROVEN DEPENDABLE VALVE provides quick recovery of 15 gal. per minute!

- STAINLESS STEEL trough, casing, cover, bolts & screws (including painted parts)
- ONLY 196 WATTS, including supply line cable. Electrical operating costs of \$4.10 to \$11.84 per year, according to university tests
- UP TO 2 1/4" of foam insulation
