**MOWER CONDITIONERS,
MOWERS AND RAKES**

**Fast, clean mowing sets the stage for
better baling and harvesting**

1490/1590 Mower Conditioners
Fast-curing, crush and crimp conditioning plus big acre-eating
capacity—get them all from either the 1490 or the 1590. The
overshot auger gently feeds the 106-inch (2.6 m) conditioning
rolls, assuring you of fluffy, fast drying swaths or windrows.
Hydraulic center-mounted pivot hitch lets you position the unit
to the right or left side of the tractor or to the center for transport.

1190 Mower Conditioner
The 1190 cuts, conditions, windrows or swaths to help you
preserve more of the maximum feed value of your hay crops.
It cuts fast and clean, has crush and crimp conditioning for
fast curing, and the header floats laterally and vertically to
harvest more crop.

Sickle Bar Mowers
You get smooth cutting in any crop at speeds up to 8 MPH
(12.9 km/h) because of our wrist-action, balanced head drive.
The 2,000 strokes per minute knife speed assures plug-free
mowing. Mounted or trailing models.

96/97 Dual Rakes
To keep your haymaking on schedule, team these 9½-foot
(2.9 m) rakes behind a dual hitch to combine two swaths from a
1590 14-foot (4.3 m) mower conditioner. Save time, labor and
fuel while improving the efficiency of high capacity balers and
forage harvesters. Rakes also available individually. Choose
either ground or hydraulic drive.

86 Economy Rake
Get gentle, clean raking action and save money, too. The 86
rake has a full 8½-foot (2.6 m) raking width, adjustable sus-
pension basket, a 5-bar reel, long-lasting teeth and choice of
ground or hydraulic drive.
