EASY ADJUSTMENTS

John Deere
1219 Mo/Co
features simple adjustments
for easy servicing

Different hay crops have varying conditioning requirements. That's why John Deere's 1219 Mower/Conditioner gives you the option of changing roll spacing and pressure in just a few minutes.

When crop conditions call for it simply change the roll spacing to as wide or as narrow as you want. When more or less pressure is needed just turn the adjusting bolt.

Easy to adjust windrow forming shields let you build the type of windrow you want. See the 9 foot 1219 Mo/Co that adapts to your haying conditions.

Save Big on John Deere Haying Parts

Your John Deere haying equipment needs John Deere parts - and now you can get those parts for the price of most imitations. Come in and save on rubber-ball rake teeth, pick up teeth & mower-conditioner guards.

PICKUP TEETH

Don't leave hay on the ground. Replace missing teeth now. Easy to attach. Extra strength for long wear, less breakage.

**SAVE 10¢ ea.
ONLY 90¢ ea.**
Fits all balers except
14T & 24T 24T 95¢ ea.

**RAKE
TEETH**

John Deere rubber ball rake teeth allow 360 degree flexibility for long life and clean raking.

**SAVE 30¢ ea.
ONLY \$2.65 ea.**
#AE24953

**MOWER-CONDITIONER
GUARD**

Forged steel withstands heavy shocks. Tight fit to mower bar for clean cutting less clogging.

**SAVE 75¢ ea.
ONLY \$6.50 ea.**
#E62000

SQUARER BALES

John Deere's baler line
builds squarer, stackable bales

To build solid, square-cornered bales consistently, you need consistent control of the hay. And John Deere's 327, 337 and 347 Balers give that control from the moment hay touches the pickup.

A wide pickup with extra teeth lets these balers take in all the hay in today's wider windrows. There's even a compressor to keep the hay under control.

A floating tapered auger and adjustable feeder forks take over to keep material flowing evenly. The gear-driven knottter puts the finishing touch on these solid, stackable bales from John Deere.
