

3 SILOS AND UNLOADERS

IT'S ALL IN THE BEARINGS.

This patented, new Starline® Belt Feeder is built better, runs steadier, wastes less feed and works like a charm — and the plow runs on quiet, smooth-rolling Cannon Ball/HNP needle-bearing trolleys. Nobody else's does! It's one fantastic feeder.

The Cannon Ball/HNP trolleys that carry the smooth-running plow on this belt feeder, run in enclosed tracks. That means much less chance of weather problems and premature wear. The solid-state instant-reverse motor provides strong, steady power through a figure-eight cable drive for positive action, protected by a slip-clutch. All control circuits are low-voltage for maximum safety. The feed is distributed equally on both sides of the bunk. Feeder cover is protected by heavy 2"x6" plank running the length of the feeder. The drive cable runs on packed ball bearings with grooved cleaners and cable wipers at all critical points. The cable is coated for maximum wear and corrosion protection.

Ask your Starline dealer for a demonstration soon. You'll find this new feeder is hard to beat.

Lancaster BELT FEEDER AND NEW Lancaster CONVEYOR Modern dairy and beef feedlots can be automated with the use of bunk feeders using belt feeder units. Corn silage haylage high moisture corn and other feed material can be distributed quietly evenly and with no separation. A traveling plow unit places the feed directly to the center of the bunk trough. Simple operation and very low horsepower requirements make this Lancaster belt feeder popular with dairy and beef operators. Rubber belt and wooden trough design keeps silage from contacting or corroding metal.

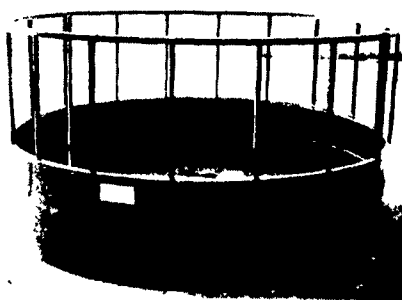

What Unloader Will You Use In The Year 2000?

If you purchase the Supreme SS428 Turbo Ring Drive Unloader now it's a good bet this same unloader will be performing in the year 2000! Supreme Posi-Tracs are proven good for 20+ years. The Stainless Turbo must last longer with lower maintenance. And, the Supreme SS248 Turbo Ring Drive Unloader is unmatched for performance. Hardened chopping augers rip thru hard-packed & frozen material to rapidly deliver volumes of forage. The 4-paddle 28" Stainless Steel Blower has tremendous output capacity.

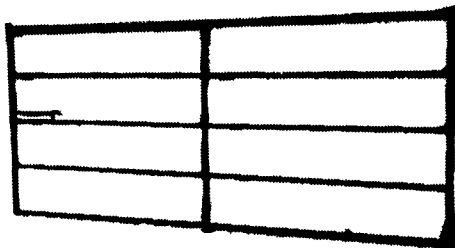

Supreme Unloaders—Good For The Year 2000 And Beyond!
