ATTENTION FARMERS
Strengthen And Reseal Your Silo With Shotcrete

*S & S Silo Service Has Experience
Over 160 Silos Have Been Relined With Shotcrete*

S&S Silo Service prepares the silo surface by using a 3,000 lb. pressure washer, thus making the silo moist, making a much better surface to bond

shotcrete. After shotcreting, S&S always takes away any roughness by applying a steel trowel finish.

The excellent bonding of shotcrete to the silo will keep out moisture and prevent mold from growing on the side of the silo.

Available in Gas or 1 1/2 HP, 2 HP Electric and Hydraulic Motors

Lancaster BELT FEEDER AND "NEW" Lancaster CONVEYOR
Modern dairy and beef feedlots can be automated with the use of bunk feeders using belt feeder units. Corn silage haylage high moisture corn and other feed material can be distributed quietly evenly and with no separation. A traveling plow unit places the feed directly to the center of the bunk trough. Simple operation and very low horsepower requirements make this Lancaster belt feeder popular with dairy and beef operators. Rubber belt and wooden trough design keeps silage from contacting or corroding metal.

The Best In Ring Drive

What Unloader Will You Use... In The Year 2000?

If you purchase the Supreme SS428 Turbo Ring Drive Unloader now it's a good bet this same unloader will be performing in the year 2000! Supreme Post-Tracs are proven good for 20+ years. The Stainless Turbo must last longer with lower maintenance. And the Supreme SS248 Turbo Ring Drive Unloader is unmatched for performance. Hardened chopping augers rip thru hard-packed & frozen material to rapidly deliver volumes of forage. The 4-paddle 28" Stainless Steel Blower has tremendous output capacity.

Supreme Unloaders—Good For The Year 2000 And Beyond!
