

Ask Your Purina Farm Consultant.

Pictured is Clay Clement, farm consultant for Woodstown Ice & Coal Co. in Woodstown, N.J. Following are some of the most common questions asked of Clay by dairymen in his area.

Q Should you feed hay to calves under two months of age?

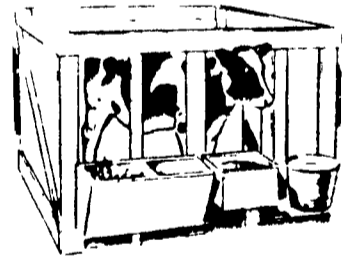

A No! If hay is fed before two months of age, rumen Papilli development is inhibited, which inhibits the efficiency of the rumen, and results in LOWER RATE GAINS.

Q: What should be a target weight goal for my Holstein calf at 6 months of age?

A: The calf should weigh 390 pounds at the end of 6 months.

If you have a question that you would like to see discussed about dairy nutrition or dairy herd management, ask your Purina Farm Consultant or send your questions to:
