Eastern Producer Receive Dividend

SYRACUSE, NY - Eastern Milk Producers announced today a patronage refund to its members for the fiscal year which ended March 31, 1986.

Earl R. Fowood, president of the 4,000 member dairy cooperative, cited record profits which enabled the organization to return the dividend or "13th milk check" to its members. A total of one and one half cents per cwt will be returned to member dairy farmers for milk shipped during the 85-86 fiscal year.

In a related matter, General Manager, Michael H. Donovan, announced a total of more than \$214,000 paid by the cooperative in the form of equity redemptions to

members during the 85-86 fiscal year. "Two Hundred and Eighty Six (286) farmers who have either retired or left dairy farming shared in the record equity redemption", said Donovan in commenting on the Cooperative's year end financial condition.

Over half a million dollars are represented by these two transactions. "This is just another indication of the financial strength of the organization", added Donovan.

Eastern Milk Producers is the largest milk marketing cooperative in the Northeast operating in states from Vermont to Delaware.

Smile...And Say Cheese!

Lancaster County Commissioner, James Huber, (right) was on hand at Park City on June 7 to help County Dairy Princess Janae Martin dole out 1,500 servings from a 125-foot cheese sandwich. The submarine-size sub was part of the county Dairy Promotion Committee's Dairy Month activities. Assembled by Stauffer's of Kissel Hill, the sandwich contained 80 pounds of cheese, 25 pounds of tomatoes, gallons of ketchup and mustard and pickles and onions by the pound.

Following his address stressing the importance of the dairy industry to Lancaster County, Huber took the first bite . . . Mmmm, good! (Photo by Sally Bair)

Could you use a money making investment that pays off in 3 short years?

Who couldn't. Especially with things the way they are on today's farm AeroDry is a grain drying system that makes you money in ways you might never expect

You make the elevators' profit.

First of all, with an AeroDry System you get to keep all those hard-earned dollars you used to pay to the elevator for drying and storage. And no more sitting in those frustrating waiting lines just when there's so much work to do.

Low cost drying.

Next, when you compare AeroDry with any heat drying unit, you come out ahead even more. AeroDry burns no gas. The state-of-the-art AeroDry Computer controls fan-forced fresh air to dry grain naturally at a fraction of heat drying cost. The savings are yours

Premium test weights.

Your grain stays perfect, undamaged by heat and cracking, protected from mold by evaporative cooling. That means the highest possible test weights for you. And that means money.

The pay off.

AeroDry has paid itself off in 3 quick years for hundreds of farmers just like you. Now it's making them plenty. Couldn't you use an investment like that?

AeroDry pays off.

AGRICULTURAL IRRIGATION SYSTEMS

FEATURES:

- CONSTRUCTION Fully welded reel and main frame
- BELLOWS DRIVE The patented water bellows drive offers a reliable 'no pressure loss thru drive system' using only 1%-2% of pumped water which is then applied to the crop, saving up to 25 psi when compared with turbine drive. It also enables gun nozzles to be changed to give light applications of water for seed-bed irrigation
- LOW MAINTENANCE The simple drive unit offers really low maintenance - No cylinders to repair, No chain or sprockets to wear, No seals to leak, No gearboxes or pulleys to maintain
- AUTOMATIC SPEED CONTROL Ensures an even hose pull-in speed
- TURNTABLES OR FIXED MODELS
- PTO WIND-IN

OPTIONAL EQUIPMENT:

- Hydro Drive
- Automatic Shut Down Kit
- Delayed Start Unit
- Riser Pipe
- Blow Out Attachment
- Auxiliary Drive Kit
