**Haymaker!**

**KUHN Rotary Mower/Conditioners**

In boxing it takes the right conditioning to deliver a haymaker punch. In haymaking you need the right machine to deliver a great crop. And that's where **KUHN Disc Mower/Conditioners** come in.

- Cuts quicker (7-9 mph/6-7½ acres per hour) with greater capacity
- Less dry down time than many other systems on the market
- Tangled, down wet hay won't stop them
- Conditions more evenly - less leaf/nutrient loss
- Variable cutting widths available

Get the haymaking punch you need for a championship crop this season. See your **KUHN dealer** now.

**Better deal days**

We're dealing far beyond our ordinary good deals to put a new John Deere on your farm

**ALL EQUIPMENT SHOWN IS IN STOCK — FOR IMMEDIATE DELIVERY!**

**9-foot mo/co**

**John Deere 1219 Mo/Co powers through tough haying conditions for faster drydown**

The 9-foot 1219 Mower/Conditioner is built strong to handle thick hay stands, yet nimble enough to float over rough terrain.

Adjustable high-pressure conditioning rolls mean faster drydown in varied conditions

**Wide and reliable**

**John Deere's 9½-foot 670 Rake offers rubber-ball flex teeth for reliable service life**

The 670's rubber-ball flex teeth let you rake fast and get all the hay laid down in a 9-foot swath

Stop by and see how the 670 can give you years of trouble-free service

**HUGE PRICE REDUCTIONS!**  
These Items Must Go!!

**AUTOMATIC BALERS**

**John Deere round balers make baling almost automatic for any operator**

The John Deere 430 and 530 Round Balers' automatic design begins with the exclusive **Bale-Trak®** monitor. It's your electronic guide to making bales that are uniform in shape and size every time.

**SQUARER BALES**

**John Deere's baler line builds squarer, stackable bales**

To build solid square-cornered bales consistently you need consistent control of the hay. And John Deere's 327, 337 and 347 Balers give that control from the moment hay touches the pickup.
