Massey-Ferguson 725/925 Haytenders

**TWO GREAT WAYS TO SPEED BIG HAY JOBS**

Get the jump on haying this year with one of these Massey Ferguson Haytenders. The MF 725 with a 7'3" swath and the MF 925 with a 9'3" swath. Both will mow and condition your hay without skipping or plugging.

The unitized header and compact design help assure a smooth, even cut by reducing bounce. Drum reel is fully enclosed and features speed pitch and position adjustments to keep the crop feeding in at an even pace. The fluted steel top roll is positioned slightly forward to keep fluffy crops moving off the reel teeth. A laminated rubber bottom roll minimizes leaf loss.

Add it up. When you've got hay to tend there's no better way to get started than with a Massey Ferguson Haytender. Let us show you what we mean.
