Easy does it at dessert time in the summer months; that's why ice cream is so popular. It's not only cool, it's easy to serve, even in fancy forms. Scoop it, top it, sauce it...make a sundae, a float...shape it into a handsome bombe' or torte, or try an ice cream pie.

Ice cream is easier to scoop or slice for such elegant desserts if moved from freezer to refrigerator to soften. Allow about 20 minutes for 1/2 gallon, 10 minutes for a pint for scooping, half that time for slicing.
